

#### Testimony 4

Ms. Ayach is a teacher whose family home is located in Dahieh, an area that has been repeatedly affected by the war situation. The family had already been forced to evacuate during the previous war, and their home was affected and damaged at that time.

During the recent war, the family's home was affected again and sustained further damage. As a result, they had to evacuate once more and seek a safer place to stay.

Since several members of her extended family also live in dangerous areas, they are currently all staying together in one apartment. The living situation remains very difficult, as approximately 17 family members are sharing the same apartment until now

The 100USD voucher that they have received from the NECB was greatly welcomed. It has helped to cover the cost of some meals for the gathered family.
